

Operation Realife

RI-001

Water Distribution for September

7 Communities

180,000 liters

60,000 people

Operation Realife continued its water efforts into September. We are still entering both high-density areas and informal camps to meet the needs of people who may otherwise go without water for lengthy periods of time.

On average, Palestinians are walking for half a mile to six miles to obtain 2 to 9 liters of water for all of their needs. This falls below the humanitarian benchmark of 15 liters of water per person per day - highlighting the catastrophic situation all Palestinians in Gaza face.
